

Term 4

What a busy term this has been.

Our main topics, this term, have included: the four operations, non-chronological reports, cardiopulmonary resuscitation (C.P.R), building a tent /campfire, cooking, health and safety in a kitchen and net sports such as volleyball, pickleball and table tennis.

The children have been working hard, linking our learning to life skills and the real world. For example, in maths, the children have been using the four operations, including decimals and some children have applied their learning when creating our weekly menu and ordering the food online – making sure budgeting is considered.

Perseverance and resilience have been abundant this term. Whether learning new social skills, working as part of a team, applying maths to real life problems, improving their handwriting, being able to touch, prepare and cook food types that previously they could not, partaking in activities outside or simply following recipes, instructions or rules, children have pushed through some of their own barriers with amazing outcomes. Well done to all.

Some of our highlights this term.

Pancake Day

The chefs of the day had the opportunity to flip and serve the rest of us delicious pancakes.

World Book Day

Many amazing costumes which made us all smile. These included pirates, Batman, Alice in Wonderland, The Mad Hatter to name just a few. We enjoyed many activities, including sensory and name the baby.

Finally, in the last week of term our first whole school trip to Wingham Wildlife Park was a resounding success. It was thoroughly enjoyed by all. We now look forward to next terms trips.
